

RIDGID® Tools for a Lifetime

RIDGID roll groovers are especially designed for field and shop use. For grooving in place there is the 914, while the 918 and 918 readily adapt RIDGID Trenching machines to roll groovers. The 918-4 is especially designed for fabrication shop use.

Product: RIDGID 914 Roll Groover.

Model: Carrie Stevens ... Photographed at the Peter Gowler Studio, Santa Monica, California, by Peter Gowler.

RIDGID | Kollmann.

Tools for a Lifetime

RIDGID Kollmann drum machines muscle their way through tough blockages. All machines feature tough corrosion-proof drums which are designed for quick removal. Inner core cable transfers cutting power to the tool, cutting quickly through obstructions.

Product: RIDGID Kollmann Kedi Drain Cleaner

Model: Ivana — Photographed at the Uplifters Ranch, Santa Monica, California, by Peter Gowland.

Pre-Tested Work Saver Tools

Your RIDGID Distributor helps you avoid downtime with on-the-spot technical advice.

Anniversary Highlights

1935—1939 Who would have imagined that what began as a basic industrial shop calendar in 1935 with its large size dates and product pictures would, in the next 50 years, evolve into the most popular industrial pin-up calendar in the world? Or that The Ridgid Tool Company, then just 12 years old, would become the world's leading manufacturer of professional quality hand and power tools with facilities in over a dozen countries and employees representing the company throughout the world.

Anniversary Highlights

1975—1976 On-location photography became increasingly common on the Ridge Calendar in the 70's with sand, boats, trees, flowers and water as major background and prop materials. The California west coast with its year-round warm climate, Hollywood hopefuls, major modeling agencies and famous photographers, became the prime focal point for Ridge Tool Calendar photography.
